

Sinclair Broadcasting's decision to force their corporate opinions onto local broadcast stations does not show respect for use of the public airwaves. To air a one sided political documentary days before the election is a clear example of the dangers of media consolidation.

The public needs your support to keep free speech flowing on the public airwaves.

Please do not renew the license for any station which "feeds" the public one sided information.

A fair spectrum of information is essential for our continued democratic process, and corporate interests should not be served through the public airwaves.

Thank you.
